

Regain skin's natural fairness and let dark spots fade away with advanced UV protection and a variety of botanical ingredients. Plants are rich in antioxidants that fight free radicals, and their nutrients can help skin counter melanin production in the dermis and promote cell regeneration. Harness the power of plant ingredients for fairer, healthier skin that glows.

Fruity Fairness

Fruits are delicious, but also full of nutrients that promote skin fairness. Fruits that have skin whitening properties include lemon, grapefruit and orange. Their extracts address dullness and dark spots at the source: melanin, produced in the dermis due to DNA damage from UVA and UVB radiation.

Malic acid in apple and citric acid in orange can aid skin's natural process of shedding dead cells, revealing clear, smooth skin. Fruits such as hawthorn berry and jujube soothe skin and aid skin repair.

Oxygenberry Complex

Oxygenberry Complex is an anti-aging and whitening skincare breakthrough made from the extracts of precious ingredients:

Ginseng Berry contains some of Nature's best antioxidants to reduce environmental and oxidative stress.

Cactus Fruit is an excellent source of skin-nourishing nutrients and plays a significant role in promoting cell repair and renewal.

Cactus, anti-inflammatory and high in antioxidants, helps to prevent DNA damage, improve skin structure and appearance, promote cell renewal, and delay skin's aging process.

Grape Seed extract possesses 50 times more antioxidant activity than vitamin E, promotes wound healing, and helps to keep skin soft and supple.

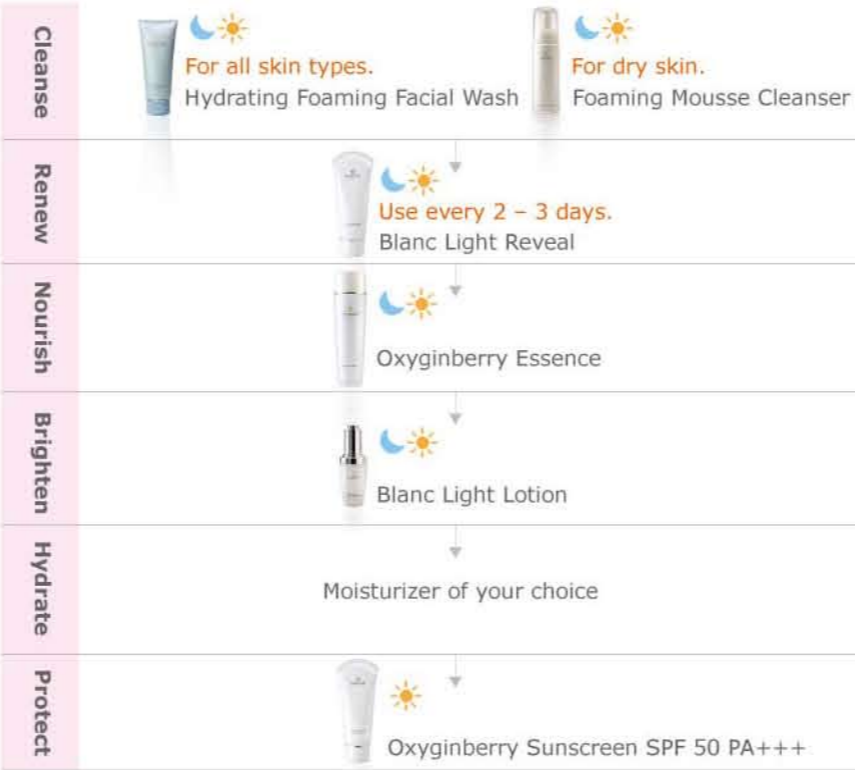

Rose, with a high concentration of antioxidants, helps to lighten pigmentation, enhance collagen production and protect skin from harmful UV rays.

Seaweed promotes cell regeneration, skin repair, skin elasticity and firmness.

This brochure may contain references to scientific research that has been performed regarding one or more herbs used in E. Excel's products. These references demonstrate that the scientific community is documenting and verifying the amazing and wonderful powers of specific herbs, but under the specific circumstances and uses described in the referenced studies. Any claim that using E. Excel products containing these herbs will achieve the specific results described in these studies is specifically disavowed and disclaimed by the Company.

Step Into The Light

Protect and Preserve the Fairness of Youth

Exfoliate

Blanc Light Reveal

Reveals dramatically brighter and fairer skin with just one use

Lift the veil of dullness from your skin with just one use. Reveals smooth, clear and radiant skin and minimizes the appearance of pores with regular use.

Function

- * Special exfoliating action thoroughly removes pore-clogging dead skin cells, dirt and sebum.
- * Sloughs off dead skin visibly with a gentle massage and rinses off cleanly.
- * Complements Blanc Light Lotion to promote skin cell turnover and brightening effects.
- * For best effect, use every 2 - 3 days.

Innovation

- * Oxygenberry Complex and unique blend of fruit extracts activate cells, promote regeneration, reduce dullness, and delay visible signs of aging.
- * Fruit extracts effectively exfoliate skin.
- * PCA-Na locks in moisture to hydrate skin and makes it supple to the touch.
- * Advanced formula suitable for use on damp or dry skin.
- * Gentle exfoliating gel does not contain alcohol, oil or exfoliating particles; ideal for all skin types.

Reduce or stop use if skin irritation occurs.

Regenerate

Blanc Light Lotion

Activates cell regeneration for visibly fairer skin in just 20 days

Achieve a clear, even skin tone and healthy radiant skin with this revolutionary breakthrough in skin brightening technology. Skin looks beautifully clear, translucent and luminous.

Function

- * Goes deep into skin's basal layer to inhibit melanin production.
- * Effective for application on entire face or on spots to fade discolorations.
- * Weightless lotion with a refreshing texture ideal for all skin types. Follow with moisturizer of your choice to enhance skincare.

Innovation

- * Oxygenberry Complex nourishes skin cells for healthy regeneration.
- * Hawthorn berry extract conditions skin and delivers powerful antioxidants to fight free radicals.
- * Jujube extract relieves sunburn and aids skin repair.
- * Grapefruit and apple extracts enhance skin regeneration with procyanidins and reduce spots with catechins.
- * Orange juice improves cell turnover and skin suppleness.
- * Lemon juice helps to lighten dark spots.

Reduce or stop use if skin irritation occurs.

Protect

Oxygenberry Sunscreen SPF 50 PA+++

Water-resistant sun protection for 12 hours in a SPF 50 formula

Long-lasting broad-spectrum protection against UV-induced skin discoloration and empowered with skin-nourishing Oxygenberry Complex, all in a weightless, ultra-comfortable texture. Skin's youth and fairness are preserved.

Function

- * Instantly protects against tanning by UVA rays and sunburn by UVB rays. Inhibits melanin production, age spots and DNA damage in the epidermis. Protects elastin and collagen fibers in the dermis to delay visible signs of aging.
- * PABA-free, non-sticky and non-greasy; ideal for all skin types, photosensitive skin and outdoor activity.

Innovation

- * Titanium dioxide creates a shield that blocks and deflects UV rays. Ethylhexyl methoxycinnamate absorbs UV rays before they damage the skin.
- * Contains Uvinul A Plus, a new UVA-ray filter and the latest in sun protection technology.
- * High-performance Oxygenberry Complex's unique combination of Ginseng Berry, Cactus Fruit, Cactus, Grape Seed, Rose and Seaweed brings nourishment to skin cells and strengthens skin's defense against UV damage. Its powerful antioxidant effects counter dullness and premature aging.
