

## Lovely Lavender

Enjoy a deep sense of well-being as lavender calms your senses, relaxes your body and soothes your skin.

The beauty, scent and healing properties of lavender make it a beloved herb through the ages. The Romans scented their baths with lavender. In fact, the name of lavender comes from the Latin word 'lavare', meaning 'to wash'.

Today, lavender is even more relevant to stressful modern lifestyles, thanks to its amazing ability to help people relax and promote a good night's sleep.

Research has affirmed lavender's ability to promote well-being with its calming, soothing and sedative effects.

## Oxyginberry Complex

Oxyginberry Complex is made from the extracts of six precious ingredients: Ginseng Berry, Cactus Fruit, Cactus, Grape Seed, Rose and Seaweed. Packed with powerful antioxidants, nutrients and trace minerals, these ingredients provide your skin with strong protection against free radicals and visible signs of aging while promoting skin renewal. Day after day, skin stays hydrated and silky smooth, and radiates the glow and vibrancy of beautiful healthy skin.

**Ginseng Berry** is rich in antioxidants to protect skin against free radical damage. It also helps to moisturize and delay visible signs of aging.

**Cactus fruit** promotes cell repair and renewal, and is high in skin-nourishing nutrients.

**Cactus** improves the skin's barrier function to lock in moisture. It is anti-inflammatory and improves the appearance of scars.

**Grape Seed** is high in OPC, a powerful antioxidant that protects against free radical damage.

**Rose** helps to improve the skin's texture and appearance, prevent DNA damage, and promote wound healing.

**Seaweed** restores moisture to skin. It aids in cell regeneration and skin repair, improves blood circulation and eliminates toxins from the skin.
